RE: Risk Control Visit 2-19-08

Dear Billy:

I appreciated your time, the other day and the opportunity to discuss the size and scope of your current activities and upcoming projects. You continue to have an excellent loss record, which is no doubt due in large part to your close-knit organization and years of experience in the industry.

Your jobsite was observed to be neat orderly and exceptionally well orchestrated with more than adequate controls for the hazards associated with the specific job tasks. Similarly, your equipment and vehicles were observed to be in good serviceable and roadworthy condition. I have no risk improvement recommendations as a result of his visit but encourage you to keep up the great work.

I look forward to working with you in the future and will send you the materials we discussed under a separate cover. If you have any questions regarding any aspect of your total risk control effort, please do not hesitate to call me at the above number.

Sincerely,

A handwritten signature in black ink, appearing to read "Kevin J. McCauley", is written over a faint, larger version of the same signature.

Kevin J. McCauley  
Risk Control Consultant
